Re: Public Disclosure Act Request
King County International Airport Records

Dear Ms. Williams:

I am writing this letter to request copies and/or an opportunity to review certain public records under the Public Disclosure Act. I understand that your office coordinates requests that may involve multiple county departments, including all those that would have documents related to the King County International Airport (Airport) and that are relevant to this request. If this is not the case, please let me know.

This public records request covers documents (including all correspondence, reports, communications, emails, notes, archived materials, studies, raw data, and related documents) related to the Airport. Specifically, we request the following information on the Airport, including immediately adjacent areas and drainage systems:

- Sampling analytical results for all media (e.g., soil, groundwater, catch basin solids, stormwater, joint compound, etc.)
- Records of maintenance activities within the stormwater drainage system (e.g., catch basin cleanouts, drainage repairs/upgrades, etc.)
- Records documenting historical and current site use of joint compound (e.g., caulking)
- Any documentation regarding use of polychlorinated biphenyls (PCBs), or other substances containing PCBs
- Records documenting sampling and/or removal of joint compound (e.g., caulking)
- Historical and current stormwater drainage pathways in, from, and around the Airport

KING COUNTY DEPT.
OF TRANSPORTATION

- Design/as-built drawings showing the design and elevations of the stormwater drainage components (e.g., catch basins, flume channels, trench drains, perforated storm drains, etc.)

If the cost to copy the requested documents is less than \$500, I would like to order copies of the requested records. If the cost is more than that amount, I would like to schedule an appointment to review the records. You can contact me at rbarth@anchorqea.com or at (206) 287-9130.

Please let me know if you have any questions about what I am requesting, or if there is a better way to request these documents.

Sincerely,

Ryan Barth, P.E.
